Stephen W. Smoot  
Patent Examiner  
Art Unit 2813

This Office action is in response to applicant's amendment filed on 16 June 2006.

#### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
  
2. The application has been amended as follows:  
**In the Claims:**  
Cancel claims 10-11.  
  
3. This application is in condition for allowance except for the presence of claims 10-11 directed to an invention non-elected without traverse. Accordingly, claims 10-11 have been cancelled.  
  
4. Claims 1-9 are allowed.

Art Unit: 2813

5. The following is an examiner's statement of reasons for allowance: Claims 1-9 are allowed because the prior art of record does not teach or suggest, in combination with the other claim limitations, a method of manufacturing a crystal resonator using a crystal substrate that includes forming a crystal resonator area and a side electrode shielding/formation block by etching a gap in the substrate and applying vapor deposition through the gap diagonally toward a side of the substrate, whereby film formation is prevented in an area of the side due to the existence of the shielding/formation block and resulting in the formation of a bisected electrode film on the side of the substrate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Replacement drawing sheets corresponding to Figs. 4-5, 7-10 were received on 16 June 2006. These drawings are acceptable.
